CHINAMEN ENJOYING MUSIC AND CLAMS ON THE SOUTH SHORE.

Their Attitude Toward Beer, and How they Intered into Athlette Sports-The Sounds that were Brawn from Gong and Cambais. Twelve carriages left Mott street yesterday morning with forty-two Chinamen bound for the south shore of Staten Island, where the first com-bake party of the Chinese colony was to be held. Deputy Sheriff Tom Lee and Court Interpreter Mingo de Luce were the master

Ten-box inscriptions, cut in red paper, and small banners adorned the fronts of Mott street houses, and the party set off amid the acclamations of an admiring crowd. A Chinese band f great power was with the party, and the drive down Chatham street and Broadway to the Staten Island ferry was signalized by a tremendeus bang, clatter, and blare on googs, tom-toms, and horns. About half the Chinamen were their native style of dress. The rest had adopted Chatham street fashions. The excursionists were among the most opulent and intelligent of the Chinese colony, and it was said that many of them were citizens and voters. A number of politicians went along. Among them were Counsellor Cowan, Judge John A. Dingle, and Maurice Highland.

straggling stop rather then to an end. The Chinamen were hilarious in their enjoyment of the entertainment.

Four miles further of driving brought the party to the Richmond Chubgrounds on a piece of beach belonging to the Vanderbill estate about half a mile from New Dorp. The band now got to serious work. The gong was suspended from the raiters of the dancing pavilion and became a more tremendous engine than ever. On this occasion the cymbal player was put to his mettle in order to maintain the primacy of his instrument. He was greatly haped by the circumstance that his instrument gave forth a higher note than the gong. The band played with such energy that a person who did not see what was going on would have thought that a force of muscular workmen were hammering a big boiler. After the storm biew over the reporter asked information as to it.

It is the Fuy Hoy Mon, said Mr. D. A. Wing, a Worth street job printer, who has become thoroughly Americanized in his ways.

"And what is that?" said the reporter.

It is a piece that is played when a marriage party comes home," replied Mr. Wing.

It therefore appears that, like so many other things, calithumpian performances are of Chinese origin.

The party then went to lunch. The lunch

down to a wooden cup with a screent sain of stretched over it corresponding to the body of our violin. The bow used was like an archer's low in shape, the bow strings passing between the two violin strings. The instrument was count a person. There was also a heather-covered wooden bowl propped up on strans, and which gave a sharp wooden moise when string apon. These, with the wind and string places before described, constituted the ordisate, which was called a safego. The paying had a certain cadence about it that heater appropriated a time, and the players bunked their eyes and had their heads back like a country fiddler sawing out The Arkansiss Travelier."

Some suttle poke had evidently been perpetrated. The name of the mustican could not be ascertained. Don't snow," was the reply to impurious. The Chinase seemed averse to giving information about themselves. And so whether he was Hi. Lo. or lack could not be learned.

Although Alderman Jones and his private combinan both say that Mr. Stuart disappeared on Sunday, the police are not wholly satisfied that he did not run away on Saturday, and that he did not take a stenner for Europe, but no pains have been taken to cable orders for his arrest to the various European ports. Mr. Stuart's bondsmen have not yet been called upon for the \$10,000, in which sum he was released.

HANNIBAL AND ST. JO LITIGATION. A Motion to Bemaud the Wilson Suit Back to the State Court.

The case of Henry R. Wilson against the Hannibal and St. Joseph Railroad, which was removed from the Supreme Court of this State into the Circuit Court of the United States last Saturday, came up before Judge Blatchford in the latter court restriction. In its original form it was an order to show cause why a writ of mandanus should not issue against the defendant to compel it to convert \$20,000 of eight per cent, bonds into the common stock of the common. It will be remembered that the real. removed from the Supreme Court of this State company. It will be remembered that the railroad company refused to make this conversion. made without legal authority. The case was removed to the Federal court because the pointiff was a citizen of New York and the defendant was a Misseuri corporation. The motion for a mandamus was recewed in the Federal court by Messrs, Dillon & Swain, autorneys for the plaintiff and was to have been heard yesterday before Judge Blatchford. When the case was called ex Judge Blatchford, When the case was called ex Judge Blatchford, when the for the plaintiff and asked for delay, Mr. Eithu Root and Mr. Williams Bartlett appeared for the paironal company and the peared for the paironal company and the peared for the paironal company. Mr. Eithu Boot and Mr. Willard Bartlett appeared for the railroad company and insisted upon proceeding with the argument. Upon this ex-Judge Dillon said that, on the whole he would withdraw his motion for a mandamus, and flie a notice of motion to remand the case to the State court.

Mr. Boot said he supposed this was equivalent to a dismissal of the origin.

Mr. Boot said he supposed this was equivalent to a dismissal of the order to show cause.
Judge Blatenord assented, and asked whether
counsel were ready to argue the motion to remand the case. Mr. Battlett answered that the
railroad company was ready. Judge Blatehford
thereupon remarked that the motion must take
its regular course, and could not be heard until the 7th of October, his next motion day.
Mr. Boot then called the Judge's attention to
the fact that the order to show cause in the
Federal court was obtained by Messrs. Billon
A Swain upon an affidavit expressly charging
that the case had been moved by the company into the Federal court merely for delay
and that the present application on the part of
the bilantiff, when the company were ready
and desirous to go on, showed which side was
readly anxious for delay.
The proceedings then terminated.
